with End Cap x2

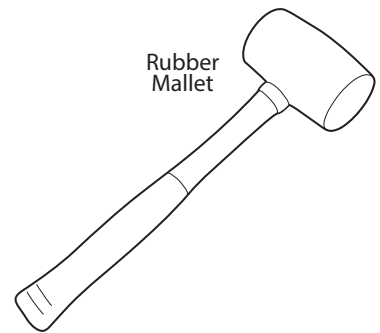

Product Care & Storage

Your new poolside game has been made with many non-corrosive quality materials and should provide you with many years of enjoyment with proper care. However, sun and chemically treated pool water (chlorine) are natural enemies of many synthetic materials. For maximum life of your game, please do the following:

1. Do not leave the game ball floating around the pool when not in use.
2. After use, wash away the chlorine pool water with plain water using a garden hose.
3. When not in use, store your game in a dry place away from direct sunlight.

Across Pool Volleyball Game

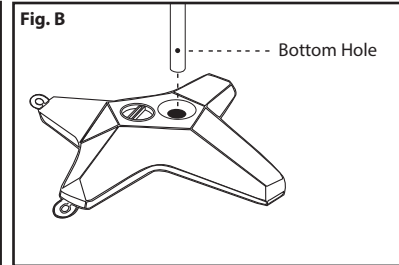

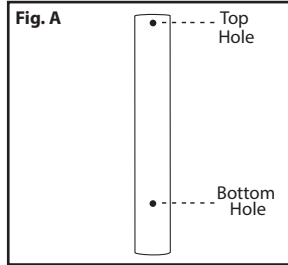

Step 1

- Fill both bases with water or sand and insert Cap into opening.

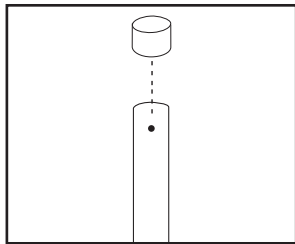

Step 2

- See Fig. A for hole orientation before installation.
- Insert 37½" PVC Pole into Base all the way to the ground (Fig. B), tap with rubber mallet if need be. Repeat on other Base.

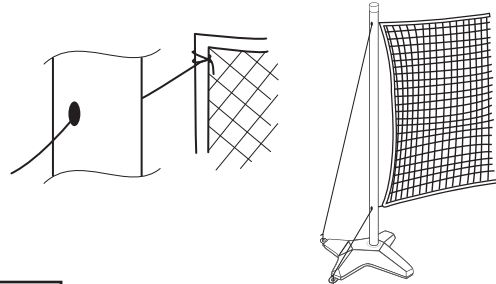

Step 3

- Place End Caps on top of Poles.

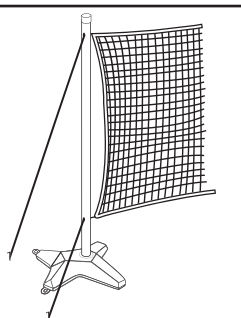

Step 4

- Tie Corner Ties of Net to each Pole. Thread through holes at the top and bottom of each Pole and secure through eyelets on base as shown. Net can be shortened by rolling on the Pole or lengthened by extending the Corner Ties.

Step 5

- For extra stability, Ropes can be tied to tent pegs (not included) extending beyond the Base.

Step 6

- Inflate Water Sports Ball to 8.5" diameter. Use Ball Needle (supplied) and hand pump (not supplied).
