

POOLMASTER®

We Make Water Fun!

INSTRUCTIONS FOR 2-WAY TEST KIT

Take water samples from depth of 12" to 18" away from return lines. Rinse test vial before each test.

CHLORINE TEST - For amount of Chlorine residual in pool water

1. Fill test vial to within ¼" from the top.
2. Add 5 drops of OTO solution.
3. Place cap on vial and swirl to mix.
4. Compare color with Chlorine standards on the left, marked in parts per million (ppm). To obtain Free Chlorine reading,

match the colors within 2 to 3 seconds. To obtain Combined Chlorine reading, wait 1 to 2 minutes and compare colors. The results are read in ppm. A desirable reading is 2.0 to 3.0. However, additional Chlorine may be needed to maintain a proper level.

pH TEST – For degree of Acidity or Alkalinity of pool water

1. Fill test vial to within ¼" from the top.
2. Add 5 drops of Phenol Red solution.
3. Place cap on vial and swirl to mix.
4. Compare color with pH standards on right. Read pH level by matching colors. A reading between 7.2 and 7.6 is ideal.

DANGER: CAUSES BURNS AND EYE DAMAGE

Read all warnings on the opposite panel before use

NOTE: The cap must always be used with the test kit vial. Do not cover the test kit vial with fingers during use. Avoid contact with the OTO Solution.

CAUTION: Conduct tests before adding chemicals. Store test kit in a cool, dark place. For accuracy, use fresh solutions at the start of each season.

DANGER: CAUSES BURNS AND EYE DAMAGE. CONTAINS KNOWN CARCINOGEN. KEEP OUT OF REACH OF CHILDREN. Avoid skin and eye contact. Do not swallow. Do not inhale fumes. Wear gloves and eye protection. Remove contaminated clothing and wash before re-use. Keep bottle capped when not in use. Store away from other household chemicals and flammable liquids.

WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. Contains 0.13% Orthotolidine and/or Orthotolidine Salt CAS 612-82-8; 5.14% Hydrochloric Acid CAS 7647-01-0, Water 94.73%.

First Aid: If inhaled, seek fresh air. If on skin or in eyes, rinse thoroughly with water. Remove contact lenses, if present and easy to do and continue rinsing. If swallowed, rinse out mouth and then drink plenty of water. If any of the above occurs, contact a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING. Contains: Hydrochloric Acid, O-toluidine Salt, Phenol Red.**

Store locked up. Dispose of contents in accordance to applicable law.
