32130	32141
32131	

Directions

Step 1

- Align 4 grooves on regulating cup with 4 rails on outer cup to allow inner dispenser to drop below outer cup. Fill dispenser with 3" Chlorine tablets or sticks. Screw outer cup onto character base.

Step 2

- To increase / decrease chlorine level, twist regulating ring at the bottom to reveal more / less open slots.

Step 3

- Place dispenser in your pool. After 24 hours, check chlorine residual with proper test kit to make sure reading is between 2.0 and 3.0 ppm. If the reading is low, twist regulating cup to reveal more open slots. After another 24 hours, repeat testing and continue to twist regulating cup to reveal more open slots until a satisfactory chlorine residual is obtained. If chlorine is too high, twist regulating cup to close excess slots.

Step 4

- Drain water from base completely when removing from pool.

WARNING:

Mixing chemicals may result in **FIRE** and/or **EXPLOSION**.
Use caution when filling cartridge. Do not inhale fumes.
KEEP OUT OF REACH OF CHILDREN. THIS IS NOT A TOY.
Not recommended for liner pools.

UNDER NO CIRCUMSTANCES should you ever mix any type of **CHLORINE** with **BROMINE** or **ANY OTHER CHEMICAL!**
